

After a night-shift shooting of a drug dealer in The Coffee Cave, twelve strangers each walk out with more than \$100,000 in dirty money, a pact never to meet again, and the chance to start over...Cass Montgomery thought money was supposed to make everything easier. But when she tries to pay off her brothers racing debts, she finds herself in deeper trouble than ever before as shes forced to race in the sideshows Wrex Cooper controls. With her motorcycle totaled and no way to keep her brother Liam out of the hospital, Cass turns to Dev Coburn, hoping he can get her bike ready to race once more. What she didnt expect is how attracted she is to Dev or how much shes putting him at risk. As the countdown to the final race looms, will Cass and Dev be able to make it to the finish line or will she end up in debt to Wrex for more than money?
