

Allied Operations: Military Romantic Suspense (Wings of Gold Book 2)

Mrs. Tappan writes one of the best accounts of today's military fighting man/woman... The characters are so real, and the story so enthralling, that you don't want to put the book down! ~ Fan review

Note from the author: Some years ago, a good friend of mine (who was in the same naval helicopter squadron as my husband) suffered through a horrific helicopter crash. This book depicts some of the real events of that accident. Please be forewarned that, although the story is ultimately one of triumph, it is heart-wrenching in spots. Compelled to join an operation by an admiral with a personal agenda, Lieutenant Kyle Mikey Hammond finds himself thrust into the harsh desert terrain of northern Pakistan. Four American engineers have been kidnapped, and Kyle is tasked to work with Samantha, a civilian authority on Pakistan, whose expertise in terrorist negotiations is the hostages only hope. However, this is just one part of Kyle's assignment. He's also operating off a set of top-secret orders that could ruin his military career. From the outset, Samantha's negotiations with the terrorists walk the sharp edge between life and death. But she is an expert at such shrewd tactics that soon begin to mirror her personal dealings with the enigmatic Navy lieutenant. Determined to unearth the true Kyle, Samantha engages in a cat-and-mouse game with him that ends up peeling away some of her own carefully concealed layers. Once both their masks are lowered, love blossoms between them. But when the daring hostage rescue finally gets underway, a horrifying accident nearly shatters everything they've worked to attain. Their survival will hinge on the strength of their love and if the man she's certain can save the day will become the hero he's convinced he's not.
