

## Bite (Bloodlines) (Volume 1)

If trouble doesn't come to him, he'll find it on his own. Dangerous, scary, crazy Kieran Smith has been called a lot of things in his time and most of them are true. He respects few, trusts even fewer and barely tolerates everyone else. When Kieran is sent on an unwanted vacation to the city of Las Vegas, he goes looking for trouble just to prove a point. Little does he know that one night is going to set in motion a chain of events that will change his entire life. Dakota Reese is a third-generation Organization agent. When she meets Kieran, the first Day Walker she's encountered, she is both intrigued and excited. She even finds his snark and sarcasm sexy. When she has the opportunity to get to know him better, it's obvious that Kieran has been tormented by shifters in his past. As much as she wants him, Dakota isn't sure that Kieran can see past the fact that she's a jaguar shifter. As Kieran finds himself falling for the sweet yet tough shifter, a ghost from his past comes back to haunt him. His boss is up to something as well and his partner is keeping secrets. He might be on vacation but Kieran isn't getting any rest. With suspicion and tensions running high, Kieran must figure out who he can trust before he really does go crazy.
