

Conall Brannock takes his job seriously. He doesn't get attached, he doesn't ask questions, and he protects his family at all costs. Nothing will change that. Not even the sweet, green-eyed witness that just burst into his life and shifted his world. He has one job to do; protect her until she can testify. He can't let his interest in her get in the way, but the more he finds out about her, the more he can't help but wonder how the beautiful broken girl got into this mess in the first place. And the longer he takes to learn the truth, the deeper he falls for her. Emily Dawson has a job to do. Stay off the grid, testify, and hopefully get her brother back. He's all she has left of the family she struggled so hard to hold together and she would do anything to keep him safe. Even if it means she has put herself in harm's way or that she has conned everyone into believing she saw something she didn't. She knows where her loyalties lie, but her stoic yet gentle protector and his crazy family makes her question everything she once knew. Loyalty can be one-sided. Family isn't always blood. And honesty can destroy everything she has come to love.
