Sometimes Happily Ever After comes with a price. Alex Marquez wears many hats. Sometimes hes the slightly patrician Don of a family with deep Spanish roots. Other times hes a brilliant tech-God and CEO of an exclusive security agency. Hes also a boss, a musician, and a fierce friend. At the core though hes a former Special Forces Commander, wounded in action, haunted by the heavy burdens of regret and what ifs that linger to this day. For him, personal redemption would never come. Too much darkness, not enough light. And then Meghan OBrien swoops into his life. Shes a ball busting curvy goddess who instantly pushes all Alexs buttons. When ghosts from the past threaten to destroy their relationship, Alex pushes her away. Meghan has a promising life ahead while his was blown to bits in a war zone. Hurt and bewildered, she comes to realize that loving Alex as she did was not a guarantee of an easy future. He had demons and if she took him on, those nightmares and the emotional aftermath were going to be coming along for the ride. Was the redemption Alex sought to be found in her arms? Would finding his soul through the love of another finally send the demons packing and lay the past to rest?
