

The Bogie Man, Paradox Graphic Mystery, No. 4

He calls himself Bogie, and hes pounding the pavement of Glasgow in search of the legendary Black Bird, one step ahead of the Fat Man and his gang of hardened killers. Theres one problem, though: the Bogie Man is actually escaped mental patient Francis Forbes Clunie, and his hard-boiled adversaries are really law-abiding citizens who are cleaner than a kilt on laundry day. But a little thing like reality wont stop the Bogie Man from getting what he wants-- or hanging his imaginary enemies out to dry. This volume collects both novel-length adventures of this English cult classic for the first time anywhere. The Bogie Man was also produced as a BBC film featuring Robbie Coltrane, the star of the popular Cracker television series.
