Physiological Training Course. The FAA Civil Aerospace Medical Institute (CAMI) offers a 1-day training course to familiarize U.S. civil aviation pilots and flight crews with the physiological and psychological stresses of flight. Why Is Training Necessary? Pilots who are knowledgeable about physiological phenomena encountered in the aviation environment are better prepared to deal with such potentially fatal in-flight events as: loss of cabin pressure hypoxia spatial disorientation trapped gas problems decompression sickness acceleration forces leading to gray-out, black-out, or even unconsciousness noise, vibration, and thermal stress self-imposed stresses that can magnify any of the above physiological events.
