

# RAF Chinook Owners Workshop Manual - 1980 onwards (Marks HC1 to HC3): An insight into the design, construction and operation of the RAFs battle-hardened tandem-rotor support helicopter

The RAFs rugged twin-rotor Chinook support helicopter has been involved in most of the UKs military operations stretching back to the Falklands Conflict, Northern Ireland and in both Gulf Wars, to peacekeeping in Bosnia, operations in Kosovo, the evacuation of Sierra Leone, and most recently its high profile missions in Afghanistan. Author Chris McNab has been given full access by the RAF to its Chinook helicopters and crews to give an unprecedented insight into their operation and maintenance, fully illustrated with a stunning selection of photographs and technical drawings.
