

Second Chance

Elle Middleton deserves a second chance. A second chance at life, that is. Despondent over a lost job and a singular lack of direction, Elle reluctantly returns to the only place she's ever found peace and solitude: Keefer Island. With a nanny job lined up on the island and a directive from her mother to sell her grandmother's island house, Elle is ready to forget the past and live fully in the present. But when she arrives, she learns that her nanny job no longer exists and the only real estate agent in town is Cash Brady, the man she loved and the man who ditched her twelve years before without any explanation. And the man who can still completely disarm her with a smile. Determined to give herself the summer she deserves and to honor her promise to her mother, Elle remains on the island. But with memories lurking behind every corner and Cash demanding answers to questions she didn't even know existed, Elle begins to realize that she may be getting more than a second chance at life. She just might get a second chance at love, too.
