Hatred paralyzes life; love releases it. New Berlin, 2040. Rebels prepare to fight against the New World Order, bent on bringing down the world's greatest tyrant. One girl wanted nothing to do with it, content to keep her head down and make the best of this new world. That is, until she has no choice but to work with the rebels and infiltrate the NWO headquarters. Every moment she spends there puts her in danger, especially when one man, the second in command to the New World leader, continues to make his way into her every thought. She must stay focused and protect not just her mind and body, but also her heart. Will she be able to complete her task without being unmasked? Or will the one man standing in her way ruin it all? \*This book is for mature audiences due to sexual situations, violence and strong language. New World Series: Book One - Switch Book Two - Masked
