

The 2000-2005 World Outlook for Boat Building and Repairing

The liberalization of markets has led to record levels of international investments. Icon Group Ltd.'s primary mission is to assist international managers to better plan and implement strategies in a global economy. It does so by providing various specialized industry reports, data bases, publications and services to its clients. This report is one of many published by Icon Group Ltd. to assist executives and planners in monitoring and analyzing world markets. In addition to industry-specific studies, Icon Group Ltd.'s reports cover human resources management, export strategies, investment strategies, entry & marketing strategies, political and economic risk assessments and legal trends (e.g., intellectual property, criminal justice, search & seizure). This report concisely compiles a variety of official and proprietary information in a format that allows the reader to quickly benchmark a country vis-a-vis its region and the world as a whole. While attention has been made to provide the most recent information available, the reader should consult with local authorities concerning any recent changes. In addition to Icon Group's proprietary sources, the information presented in our reports is compiled from various government agencies (e.g. local ministries), international organizations (e.g., the World Bank, the United Nations), and national authorities (e.g. the Central Intelligence Agency, the U.S. Department of State or Commerce).
