

Art journaling for Beginners contains a series of art journaling prompts designed for those who need ideas to get them started. Requiring few formal art supplies and no experience, these art journal prompts are especially good for children or for those who have trouble with non-linear thinking. (The author created the book to overcome just such a problem for herself!) The book begins by answering the question, What is art journaling? Once this is established, more than 100 prompts will help you learn to integrate words and art and train your brain to accept messy as an acceptable alternative to neat and tidy.
