[Siren Menage Amour: Erotic Fantasy Menage a Trois Romance, M/F/M] In this sequel to Claiming the Dream Weaver, Suz has moved lock, stock and Mac the cat to New Bern. As Penn and Liam McKenzie help her settle into her life, fear keeps her from taking up her new duties as the Dream Weaver. Will she be good enough to keep the world from freezing in an endless winter? Once she begins weaving, she finds she needs the brothers even more than before. Especially when someone begins making threatening phone calls. When the studio is vandalized and weeks of Suzs work is destroyed, the twins know they must protect their Dream Weaver with everything theyve got. Will moving the loom from the studio cause irreparable damage? Or will the trios love be enough to keep the Dream Weaver and her loom safe? When I finished Claiming the Dream Weaver, I knew the story wasnt finished and couldnt wait to see what happened next. And once again Suz and the twins surprised me with their antics. ~ Cooper ~ A Siren Erotic Romance
